

ENTRECOM 4 ALL

PRESS RELEASE

AN ENTREPRENEURSHIP EVENT IN ITALY

AN EXCITING EVENT FOR ENTREPRENEURS

Today Materahub presented the European project EntreCom4All to the students of the High School "G.B. Pentasuglia" in Matera.

During the Jobbing Fest event, hundreds of students, in the delicate phase of transition between the end of the school and the approach to the university world or a job, discovered a new e-learning platform full of instruments and a referral point where they can have indications and tools to enhance their competences on the entrepreneurial world and give themselves new chances for the future.

The platform is free and available at the link entrecom4all.eu.
