A tool to make you a better entrepreneur

The entrepreneurship scene in Europe is subject to dynamic changes resulting from societal developments, advances in the field of ICT technologies, and how they have influenced our ways of communicating and doing business.

For entrepreneurs, this means they must constantly expand their skills and knowledge portfolio. The EntreCom4ALL project comes to existence precisely with this in mind.

Discover what you need to improve on

The EntreCom4ALL consortium, composed by organizations from Spain (UPM and CECE), UK (INOVA Consultancy), Italy (MateraHub) and Hungary (Obuda University), designed a platform that will help any individual interested in increasing their entrepreneurial skills to be able to do it, in a completely free way.

The chosen entrepreneurial competences came from the EntreComp framework from the European Commission, where three main sectors are defined:

- Ideas and Opportunities
- Resources
- Into action

With this framework in mind, the partners decided to carefully select more than 1.200 OERs, divided by each competence of the EntreComp framework.
